

10" wide 1" deep tray shelves.

Lengths, 3', 4', and 5'.

INSTRUCTIONS

Please read ALL before you begin.

Pictured throughout is the 3' shelf which goes across two glazing bars, the 4' also has two sets of brackets, but the 5' has three (so you need at least an 8' length of greenhouse to be able to fit it to three bars). Each pack contains **two** shelves.

Bracket Assembly:

Attach your horizontal and diagonal brackets to your glazing bars as shown in the diagram below.

Make sure the horizontal bracket is level. The 'Pan head screws' provided are used to fit the brackets into the bolt channel on your greenhouse glazing bar.

Side View showing one set of shelving brackets:
